Ninja to drive settings

Step 1

Create form as usual

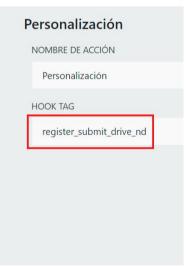

Step 2

Create a "Custom" form action. The "Custom" form action type allows you to hook a WordPress action into form processing.

The "Hook Tag" setting specifies what WordPress action hook to call during the submission process. In this case we set **register_submit_drive_nd**

Step 3

Create a google form as usual. <u>How to create google form</u> Attach responses in a spreadsheet.

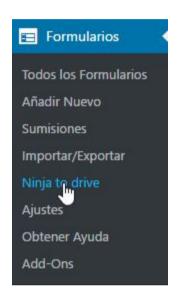

Then go to form options and deactivate restrict access option.

Step 4

We have to match each google form field with ninja form fields so:

In google form go to preview form option

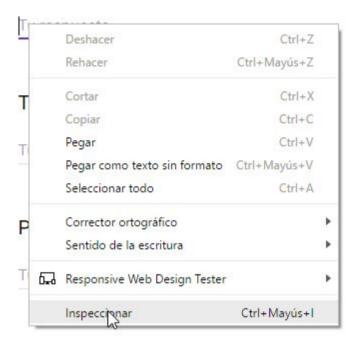

• Then select the form you will register into drive. Each form field appears. For each field we have to fill with an Id that Google set for it.

In the Google form preview inspect one field with the Browser

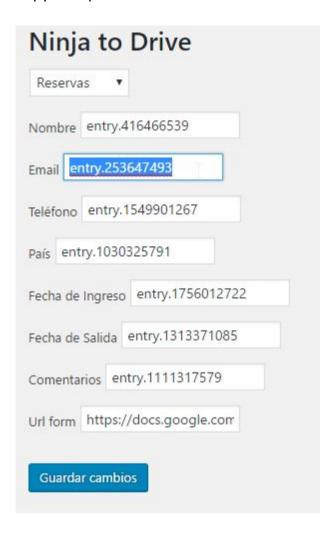

Email

Look at the input name attribute:

                            <div jsname="LwH6nd" class=
                            "quantumWizTextinputPaperinputPlaceholder exportLabel">Tu
                            respuesta</div>
                          </div>
                          <div class="quantumWizTextinputPaperinputUnderline</pre>
                          exportUnderline"></div>
                          <div jsname="XmnwAc" class=
                          "quantumWizTextinputPaperinputFocusUnderline
                          exportFocusUnderline animationInitialized"></div>
                        </div>
                      </div>
                      <div jsname="ty6ygf" class="quantumWizTextinputPaperinputHint</pre>
... div div div div div div div div div input.quantumWizTextinputPaperinputInput.exportInput
```

Copy and paste it in the field that match with the ninja form

Repeat this process for each field.

Then in Url form paste the preview Google form Url but be carefull if the url is:

https://docs.google.com/a/example.com/forms/d/e/1YRTpQLSdX6ym ZrCUs7eDZOknkO0PF3rBEIMm0t7Lgjk9DceNJ3lyPXQ/viewform

the url to paste must be without the /viewform like this

https://docs.google.com/a/trepcom.com/forms/d/e/1FAIpQLSdX6ymZrCUs7eDZOknkO0PF3rBEIMm0t7Lgjk9DceNJ3lyPXQ

Paste it in Url form in Ninja to drive form.

Save changes!

That's it!
